Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Receipt of amendment and remarks dated 10-13-04 is acknowledged.

Claims 1-43, 45-48, 54-73, 79 and 81 are canceled. Claims 44, 49-53, 74-78, 80, 82 and 83 are pending.

Response to Amendment

Upon careful consideration of the amended claims and applicants' response, the finality of the rejection of the last Office action is withdrawn and the following rejection is applied:

Claim Rejections - 35 USC § 102

Claims 44, 49-51, 80 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5,266,571 to Amer et al (Amer).

Amer discloses topical composition for treating hemorrhoids comprising nefazodone. The composition is administered in the form of a gel, cream or lotion, which read on the claimed penetration enhancer. Further, Amer discloses pH-adjusting agents that meet the claimed neutralizing agents and other carriers for the formulation (abstract, col. 2, lines 52-54, col. 3, lines 45-64, col. 5, lines 10 through col. 6, line 18 and claims).

Claims 74 is rejected under 35 U.S.C. 102(b) as being anticipated by WO 9637198 to Eisenburger et al (hereafter WO)

WO discloses an inhalation composition comprising tri- and/or tetra-cyclic antidepressants, in particular the claimed compound maprotiline, for the treatment of asthma. The composition is in the form of an aerosol (abstract). Thus, WO anticipates instant claim.

Claims 44, 49-53, 74-78, 80, 82 and 83 are rejected under 35 U.S.C. 102(e) as being anticipated by US 6,290,986 to Murdock et al (Murdock).

Murdock discloses transdermal compositions comprising antidepressants such as bupropion, robexetine etc., and particularly, tricyclic-antidepressants such as amytryptiline and nefazodone etc. (abstract, col. 1, lines 10-25, examples 5, 7, 19, 27, 31 and 35). Murdock discloses the carriers, and polymers such as pluronic, as injections (col. 2, lines 45-59, example 38). Thus, Murdock anticipates instant claims.

Claim Rejections - 35 USC § 103

Claims 52, 53, 82 and 83 are rejected under 35 U.S.C. 103(a) as being unpatentable over Amer in view of US 6,290,986 to Murdock et al (Murdock).

Amer fails to teach the claimed encapsulation of the antidepressant in a slow release delivery vehicle and also lacks the teachings of liposome or a polymer stabilized crystal.

Murdock teaches a method and composition for transdermal administration of pharmacological agents, wherein the pharmaceuticals are delivered using a matrix of lecithin organogel that acts as a penetration enhancer. Murdock teaches psychopharmaceuticals, in particular antidepressants such as, bupropion and robexetine, more particularly tricyclic antidepressants, nefazodone. It would have been obvious for one of ordinary skill in the art at the time of the instant invention to prepare the antidepressant compounds of Amer in the form of gel matrix containing penetration enhancer or absorption agents such as lecithin gel of Murdock because Murdock suggests that the lecithin organogel carrier helps delivers

psychopharmaceuticals via transdermal system or injection system, as opposed to oral and thus avoid the undesirable side effects due to the oral administration i.e., sedation, liver damage, weight gain etc.

Response to Arguments

Applicant's arguments filed 10-13-2004 have been fully considered but they are not persuasive.

In response to Applicants' amendment, the previous new matter rejection has been withdrawn. Applicants argue that the provisional rejection of claims 37-43, 73, 79 and 81, as being anticipated by Amer is moot in view of the cancellation of the claims. However, the present rejection is applied a different set of claims and accordingly, applicants argument is moot. Further, applicants argument with respect to provisional rejection of claims 75, 77, 78, 80, 82 and 83 as being obvious over Amer in view of Knepp have been consideration but are moot in view of the withdrawal of the previous rejection.
